I need a break away by myself....like that therapist said a feeling of hopelessness and depression that won't go away... That's me....I feel like a failure as a mother....just like kels mother's day was hard for me...cuz my mom not here to share it....and cuz I have so much fucked up shit going on and I have no one to talk to and understands me...tbh she probably disappointed with how I allow y'all to behave....you don't have to worry bout me no more...since you grown and your father cool with your behavior...I will look the other way....

And you can do that job easy . you just booking flights , hotel rooms , making sure money and everything else is in place . and I said why don't you fire her and he said he needs to keep his enemies closer . which is crazy . he gonna get her REAL good . that's crazy , he said that's why I started having Cheryl stop getting you chauffeurs and stuff . cause I didn't want y'all to build that bond when she's stealing from me . cause she has the numbers to everyone . landowners , everything.
